

Dear Pan Atlantic Foundation family,

We would like to thank you once again for opening your hearts and home to an international exchange student. This experience will provide you and your student with many great opportunities to learn about one another's culture, to share different ideas and to create lasting memories. As a result, you and your student will gain a broader understanding of this diverse world in which we live. We are confident that the student's stay with you will be a rewarding and delightful one.

This letter is to explain why you are receiving a follow up home visit. The U.S. Department of State requires all J-1 visa sponsors, such as Pan Atlantic Foundation, to have an independent follow up visit made to all host families' homes within the first two months of the exchange students' arrivals. This visit is to verify that the information provided by Pan Atlantic Foundation regarding the homes into which our students are placed, is accurate. The visiting representative is not required to meet all household members or the student during this visit. We appreciate you making the time to receive this brief visit and your continued support in providing a wonderful American experience for our student.

If you have any questions or concerns about the program, your Area Representative, Regional Director and the Pan Atlantic Foundation office are available to assist you and your student throughout the program. Please do not hesitate to contact them for help or advice.

Once again, thank you for your generosity and your commitment to promote cultural understanding through this student exchange experience.

Sincerely,

*Vickie McCormack*
