

Dear School Administrator,

I am happy to introduce you to Pan Atlantic Foundation! We are an organization that has been working in the field of international exchange for over 30 years and are pleased to bring the Pan Atlantic High School program to your community!

We, at Pan Atlantic Foundation, know well that the world is becoming increasingly smaller. Cultural understanding and awareness are no longer just interesting topics to study, but are necessary to work and flourish in a world in which business, educational, and social interactions are just a computer click away. Because of this reality, we are honored to have the opportunity to join you in opening the doors and classrooms of your school to the world. Our goal is to partner with you in both allowing our students to be a part of the unique life that is the American high school experience, and in bringing the knowledge of other people and cultures to your American students. For many, this program might be their first exposure to someone who lives life very differently than they do.

Our students arrive prepared. They have complete immunizations, transcripts, and academic requirements. They are well-screened for factors contributing to a successful experience - conversational English, excellent teacher recommendations, and strong personal motivation determined through personal and family interview sessions. Our students are individually evaluated through one-on-one interviews in both English and in their native language. Additionally, our Area Representatives are amongst the best trained in the field and know well how to help a student adjust to life here, within their host school and their host family.

We have expectation of our students to give back. They are happy to create age appropriate presentations on their home countries to school peers in language, geography, or history classes. They are always a welcomed visitor to grade school classes, as well. Additionally, you can usually find them joining school service clubs as a way to fulfill their community service requirements, or simply as a way to contribute back to the community that has so graciously welcomed them.

Please feel free to contact me anytime at the number below. I look forward to learning how we can best partner together and help build a better future for all!
